N. A. Jacobs the county supt. offi-ially visiting our school, makes a very favorable report of it in quite all respects, except the building. We do not blame him for finding fault with that. We want a fine large brick structure, to make Medford the school own of Southern Oregon.

If this paper does not appear interesting as usual our friends will ex-cuse us when told that what with the cuse us when took that what with the care of a sick wife, a ten months old baby, and, owing to our inability to get help, housework generally as well as the care of this office, we have had our hands full during the week.

The Committee appointed to look after the Park, has set out the trees not essary to make there, several groups, and ultimately to provide all the shade needed. What with these trees, a bandsome planting of shrubs and other flowering plants, we shall soon be in possession of a delightful playground for this public.

The Emperor of Germany died last a week of being 91 years old; a grand hale old man to the lend. He died at his royal home, in the midst of his immediate family, and mourned by vast numbers of countrymen and others, all over the habitable globe. The new emperor Frederick is 57 years old and is in the care of physicians for a very dangerous throat disease. His wife is a daughter of Victoria. The next in line of succession, is Prince William of Prussia.

Among the recent arrivals, of thos who come to stay, we are pleased to mention D. C. Herrin, of Ashland, long a resident of this valley. Mr., Herrin has secured the Lyons building of Douglas & Co. agents, on D. atreet and just as soon as it can be fitted up he will open a photographic gallery, and be prepared to do fine work in that line. Mr. Herrin is in possession of the secret process of instantane picture-taking, and tells us that he take a train on the run or a horse run ning and show an exact picture of th people flocking to and from the He will give us such a picture some of le flocking to and from the train. these days.

The compltion and dedication of th The compition and dedication of the Baptist church in this city, brings to a close the services, of Rev. Geo. W. Black, who, as misignary for this portion of the state, has served our people for many months? It gives us a great for many months deal of pleasure to add our voice to that of hundreds of others in Medford ly earnest, efficient, intelligent and where in his field by this Reverened and christian gentleman, Mr. Black. He has accomplished a good and farreaching work, and wherever he may locate, he will have the best wishes of a host of these our good people who know and appreciate him.

If we have the straight of it, Robert A. Miller of Jacksonville, has been made president of the fruit grov association of Southern Oregon. no doubt means that the organization will take on new life and vigor and be come something more than a sort of hap-hazard advertising medium for tree peddlers. With such actual and practical, and experienced growers of fruit and grapes as Stewart, Whitman, Miller, Galey and others, this associa-tion should be made one of the recog-nized interests of the state. It ought tions for all growers in Southern Ore-gon, and so hedge this great interest, that dishonest men in the business or dealing with it, cannot get it at a disadvantage.

The registers at our botel to houses and real estate offices, tell the story of a steady increase in the num ber of arrivals. Every train brings a number of people who either come to remain, or are in search of land to remain, or are in search of land to purchase; looking to a residence at some future lime. Just now, we are at the high tide of minigration on the coast, and we sught to make a liberal distribution of such literature as hou-estly advertises this valley. That is the way in which Catifornia secures the hall of impairmance to the the bulk of immigration to this coast and it is the only feasible plan we have for the same end in view. It ought to be done by the town or the Board of Trade. It is manifestly unfair to ask real estate men to do all of this work

The school meeting held last Mon day, for the election of a clerk and a three-year director, was a quiet, practical affair. Mr Webb read his valedic-tory, and Mr Howard announced the business. The citizens made the ex-cellent nomination of W. H. Barr, for cellent, nomination of W. H. Barr, for director, and, in response to a motion, the clerk cast the vote of the people. Mr. Webb, who has made an efficient and capable clerk, and who was the first choice of the meeting, pedicively de, clined to be a candidate, and Mr. Frank Galloway was elected.
